

"keep it level" vs "shortest path"
vertical travel 0 m vs 24 m

— "keep it level" - - - "shortest path"

"stay low" vs "stay high"
mean altitude 17 m vs 57 m

— "stay low" - - - "stay high"

block (0, 3): the first used block in scan order where both pairs of paths differ. Exact planner on the true cost fields, no network.
Top: surface height, darker = taller; dot = start, star = goal. Bottom: altitude along each path, surface beneath it shaded in the same colour.
